

BURG-WÄCHTER

Burg-Wächter is a family business with a more than 90 years old tradition. Experience and knowledge are passed on from generation to generation. The company is one of the leading international producers and suppliers of safes, padlocks, door and window security, measurement technique, cash boxes, letter boxes and access control.

Burg-Wächter is a pioneer in the development of electronic locks for safes offering products that meet the highest security standards and also provide a level of comfort that extends well beyond conventional lock and key systems. The company was able to gain a high level of expertise and experience in this field which now can be applied for innovative solutions in door locks and access systems. Burg-Wächter is also the only manufacturer producing padlocks in large series in Germany.

Advantages of Burg-Wächter Safes and Safety Cabinets:

- Highest security standard, independently tested and certified
- Very large range of products
- Protection against burglary and fire
- Secured with personal code, fingerprint or key
- Easy to operate

Ideal supplement for your safety and security:

- Best solution for burglary protection
- Electronic locks with finger scan module instead of conventional mechanical ones
- Freestanding safes are especially secure and can additionally be hidden in furniture, arranged in shelves or put up freely
- Wall safes can be anchored and well hidden

Burg-Wächter is looking for business partners in Canada!

In order to introduce their safes and strongboxes in Canada, Burg-Wächter is looking forward to meet distributors of safes, locksmiths, security system specialists or other potential distribution partners.
